7 Services | **4** Stages | **8+** Tools

QAROO INDIA PVT. LTD. | www.qaroo.in | support@qaroo.in

ABOUT THE COMPANY

Who We Are

Qaroo India Private Limited is a full-service company working across software development, branding and digital marketing. We build tailored solutions that fit a client's standards and vision, combining current technology with strategic creativity to develop, promote and elevate brands across India and beyond.

8	20+	2	360°
Business Solutions	Strategic Partnerships	Offices Nationwide	Full-Service Agency

Our Vision

To be a catalyst for digital transformation by empowering businesses through innovative software solutions, creative design and measurable marketing.

Our Mission

Develop software that solves real problems with precision, design intuitive digital experiences that elevate brand identity, and deliver work a client can measure.

WHAT WE DO

Core Services

Software Development

Custom web and mobile applications, full-stack builds and scalable enterprise systems.

Branding & Design

Logo design, visual identity, UI/UX and creative brand strategy end to end.

Digital Marketing

Search, social and growth marketing campaigns measured against real business metrics.

Strategy & Research

Business strategy, market and user research that decides where the effort goes.

One Team, Across Every Discipline

Strategy, design, engineering and marketing sit in the same team, so a brief does not change hands between agencies. Head office in Coimbatore, branch office in Chennai.

STRATEGIC ALLIANCES

Our Partners

Qaroo India works with a network of corporates, institutions and social enterprises. That network sits behind every engagement we take on, including the work proposed in this document.

Infosys Foundation

Supports underprivileged communities across India through initiatives in education, healthcare, rural development, arts and destitute care.

EduBridge

India's leading workforce development platform that helps learners build careers through training and career services with top corporates.

Atos Prayas Foundation

The CSR arm of Atos, offering education, vocational training and skill development programs for underprivileged communities.

AISECT

India's leading social enterprise driving inclusive growth in rural and semi-urban areas through skill development, education and ICT-based services.

Canara Bank

An Indian public sector bank based in Bengaluru, established in 1906. Also has offices in London, Dubai and New York.

SNS College of Engineering

An AICTE-approved multidisciplinary institution in Coimbatore, redefining intellectual and creative boundaries since 2007.

Nayago Educational Trust

A volunteer-based NGO founded in 2017 to create youth awareness on global opportunities and develop intra- and interpersonal skills.

Narayana Engineering College Nellore

A premier self-financing institution in Andhra Pradesh with state-of-the-art facilities fostering academic excellence since 1998.

"Lifetime Achiever" — World Women's Association, 2024

Awarded to Mrs. Suganya Priya Gobinath, Director, Qaroo India Private Limited.

THE PROPOSAL

Software Development

Off-the-shelf software rarely fits every business process. We build custom software, internal tools and SaaS products that solve one specific problem well – end to end, from planning through development to ongoing support.

We focus on scope. A clear problem, a tight build and a useful result is worth more than a sprawling product that tries to do everything.

Our team designs, develops and maintains the software, keeping the interface simple and the code maintainable.

ENGAGEMENT AT A GLANCE

4 Stages, One Team

1 Define → 2 Design → 3 Develop → 4 Support

Why Clients Choose Qaroo For This

- One Problem Solved Very Well
- Clean, Maintainable Engineering
- End-to-End Delivery and Support
- Automation of Real Manual Work

SCOPE OF WORK

What Is Included

Everything below sits inside the Software Development engagement. Scope is agreed before work starts, so what is in and what is out is written down rather than assumed.

01
Custom Business Applications

02
Internal Tools & Dashboards

03
SaaS Product Development

04
API & Integration Development

05
Legacy System Improvement

06
Application Maintenance & Support

07
Automation of Manual Processes

TOOLS & PLATFORMS

What We Work With

React | JavaScript | Node.js | REST APIs
MongoDB | SQL | Python | Cloud Platforms

DELIVERY APPROACH

How We Run It

The Software Development engagement runs in 4 stages. Each one has a defined output, so you always know what has been done and what comes next.

01

Define

Stage 1 of 4

- Identify the Core Problem
- Scope Features to What Matters
- Plan Data and Integration

02

Design

Stage 2 of 4

- Design the Interface and Flow
- Plan the Architecture
- Validate with Users

03

Develop

Stage 3 of 4

- Build in Focused Iterations
- Integrate and Automate
- Test for Reliability

04

Support

Stage 4 of 4

- Deploy and Launch
- Maintain and Update
- Improve Based on Use

One Team, One Point Of Contact

Strategy, design and delivery sit together, so nothing is handed between agencies mid-project and there is one person accountable for the outcome.

OUTCOMES

What You End Up With

The measurable result of the engagement, and the capabilities built into what we hand over.

Business Outcomes

- Software That Fits Your Exact Process
- Less Manual, Repetitive Work
- A Dependable Product with Ongoing Support
- Technology That Can Scale as You Grow

Built In

- Focused on One Problem Done Well
- Clean, Maintainable Code
- Simple, Practical Interfaces
- Scalable Architecture
- Secure Data Handling

OUR COMMITMENT

How We Work

01 One Problem Solved Very Well

02 Clean, Maintainable Engineering

03 End-to-End Delivery and Support

04 Automation of Real Manual Work

WHERE THIS APPLIES

Fit & Context

Who this engagement is built for, the situations it suits, and the problems it is designed to remove.

Common Challenges

- Manual, Error-Prone Processes
- Off-the-Shelf Software That Does Not Fit
- Data Trapped in Disconnected Spreadsheets
- No Clear System for Operations

How We Address Them

- Build Tools Tailored to the Process
- Automate Repetitive Work
- Consolidate Data into One System
- Deliver Maintainable Software with Support

TYPICAL SITUATIONS

When Clients Come To Us

- An Internal Tool That Replaces Spreadsheets
- A Custom Dashboard for Operations
- A SaaS Product Ready to Launch
- Automating a Repetitive Manual Process

SECTORS

Industries We Serve

Manufacturing | IT Services | Logistics | Retail | Education | Any Business with a Workflow to Digitise

ENGAGEMENT

How We Package This

Three scopes, so the engagement can start where it makes sense and grow. Every scope is quoted against your requirement rather than a fixed rate card.

ESSENTIAL

A focused engagement covering the core of the work.

- Custom Business Applications
- Internal Tools & Dashboards
- SaaS Product Development

Pricing on request

GROWTH

The core plus the pieces that compound over time.

- Custom Business Applications
- Internal Tools & Dashboards
- SaaS Product Development
- API & Integration Development
- Legacy System Improvement

Pricing on request

COMPLETE

The full scope, run end to end by one team.

- Custom Business Applications
- Internal Tools & Dashboards
- SaaS Product Development
- API & Integration Development
- Legacy System Improvement
- Application Maintenance & Support
- Automation of Manual Processes

Pricing on request

QUESTIONS

Frequently Asked

How do you decide what to build?

We start with the problem, not the technology. We scope the smallest useful version that solves it well, and build from there based on what works.

Can you automate our existing manual processes?

Yes. Many projects start by automating a repetitive, error-prone process a team does by hand.

Do you support the software after launch?

Yes. Ongoing maintenance and support are part of how we work, so the product stays reliable and improves over time.

FINAL PROPOSAL MESSAGE

Let’s Build This Together

Qaroo India Private Limited looks forward to delivering this Software Development engagement for your organisation. Tell us where you are today and what you need the work to achieve, and we will come back with a scope, a timeline and a quotation built around it.

Every engagement starts with a scoping call, answered by a real person — so the work is shaped around your business from day one.

Strategy + Design + Technology + Growth

Define. Design. Develop. Support.
