01

ABOUT US

Who we are, what we do, and the reason our clients and learners keep choosing Qaroo.

Founded in 2023 and headquartered in Coimbatore with a branch office in Chennai, Qaroo India Private Limited was built on a simple idea — that technology, creativity and education should work together to move people and businesses forward.

We craft tailored software, memorable brand experiences and result-driven digital marketing campaigns for our clients, while running industry-relevant training programs that have already equipped thousands of learners with real, employable skills.

> ***"We are committed to our client's success — through technology, creativity and continuous learning."***

SOFTWARE & DEVELOPMENT

Full-stack, web & app engineering built for scale.

SKILL & TALENT TRAINING

Career-ready programs across 20+ tech disciplines.

WHY CLIENTS CHOOSE US

One team across engineering, design, marketing and training means fewer handoffs and a single point of accountability — from the first line of code to the final rollout, and from classroom to career.

{inner_footer('02')}

02 BUSINESS SOLUTIONS

A full spectrum of technology, creative and strategy services — designed to help businesses build, brand and grow.

01

CRM Solutions

Strategy, implementation, customization and pipeline reporting built around how your sales team actually sells. We help you choose, configure, and adopt the right CRM for your workflow.

02

Digital Marketing

SEO, content and performance marketing built around measurable business growth, not vanity metrics. From keyword strategy to conversion optimization.

03

Graphic Design & Branding

Brand identity, collateral and creative systems that hold up across every channel you use. Logos, brand guidelines, social assets, and print-ready designs.

04

Web Development

Fast, SEO-friendly business websites — from landing pages to full e-commerce builds. React, WordPress, or custom stacks based on your needs.

05

Software Development

Custom software, internal tools and SaaS products built to solve one specific business problem well. End-to-end development with ongoing support.

06

UI/UX Design

Wireframes to design systems — usability and conversion, not just visual polish. We design experiences that users actually enjoy.

07

UX Research

User interviews, usability testing and journey mapping that inform product decisions before you build. Data-driven design thinking.

08

Business Strategy

Growth, go-to-market and digital transformation strategy with a clear discover-to-measure methodology. Roadmaps that actually get executed.

01 **Discover client goals & scope**

02 **Design, build & train**

03 **Deliver, support & grow**

03 LEARNING PROGRAMS

Industry-relevant career tracks with hands-on projects and placement support — built to turn learners into professionals.

Data Science & Business Analytics

Build practical skills in data science, Python, machine learning, statistics, data preparation, data visualization and AI-assisted analytics through project-based learning.

- Introduction to Data Science
- Python programming
- Data collection
- Data preparation & cleaning

Full Stack Development

Learn front-end development, backend programming, databases, APIs, frameworks and version control through practical full stack development training.

- HTML5
- CSS
- Responsive web design
- Bootstrap

UI/UX Design

Develop practical UI and UX design skills covering user research, wireframing, prototyping, visual design, usability and professional design tools.

- UI design fundamentals

WHAT DRIVES OUR PEOPLE

{chips(['Ownership', 'Curiosity', 'Empathy'], 'chip')}

> ***"Our people are trainers as much as they are builders — every team member carries both a craft and a responsibility to teach it."***

{inner_footer('07')}

07

07 CULTURE & VALUES

Integrity and excellence are the pillars of our corporate culture — every project and every learner deserves our full commitment.

INTEGRITY

Doing what is right, with transparency, in every client and learner relationship.

EXCELLENCE

Setting a high bar in code, design and teaching — and holding to it.

INNOVATION

Applying cutting-edge technology and creativity to solve real problems.

COLLABORATION

Working as one team with clients, partners and institutions to deliver more.

COMMITMENT

Staying accountable to every promise made to clients and learners alike.

GROWTH

Continuous learning & improvement, for our team and everyone we train.

> ***"People grow fastest when technology, creativity and continuous learning move together."***

FOR OUR CLIENTS

Consistent delivery, transparent communication and a partnership that extends well beyond project launch.

FOR OUR LEARNERS

Mentorship, hands-on projects and career support that carry on long after the classroom.
